

REACH PEOPLE PICKING **RTK** RIGHT NOW

FixFinder is a free directory of every RTK correction network in the US, plus field tools for drone mapping and survey work. People come to it when they need corrections for a real job.

WHO USES FIXFINDER

- About 540 visits and 930 page views in the last 30 days, with bots left out (Cloudflare Web Analytics, Oct 30, 2026). We launched in October, so it's early and growing.
- Top pages: the State of Free RTK 2026 report, the home page map, the coverage check.
- Surveyors, Part 107 drone mapping pilots, AEC teams and precision-ag operators.
- The Fix Report newsletter is new. Issue 1 goes out Nov 3, 2026, then every 2 weeks.

THE RULES

- Every paid spot is clearly labeled "Featured" or "Sponsored."
- Paying never changes listing data. Prices, coverage and reliability reports stay the same for everyone.
- RTK, GNSS, drone and survey brands only.
- We check your logo and text before anything goes live.
- Launch prices. Buy now and keep your price while you stay subscribed.
